

Experience the power & convenience of online accounting

What is Liberty Accounts?

Liberty accounts is the premier online accounting solution for use by you and your accountant. Users of Liberty Accounts are backed by one of the worlds most sophisticated online accounting networks in the world — a top class computing infrastructure with state –of–the–art security, privacy and reliability.

Why use Liberty Accounts?

Liberty Accounts provides all the features of any typical accounting package, but above all, it is:

Easy to use

Liberty Accounts is designed for ease of use. A familiar menu driven approach will allow you to quickly get to grips with our solution.

Accessible

Liberty Accounts is available to authorised users from any internet connected computer. You are no longer restricted to being in the office to produce invoices or work with your business accounts.

Convenient

As Liberty Accounts uses a shared central database, your accountant can help you with your accounts at any time. You can work together, reviewing and updating the same financial picture but from different locations.

Flexible

Use Liberty Accounts in different ways according to your needs. Whether you want to do all your own book-keeping, or simply want to see what your accountant has done, Liberty Accounts can work for you.

Simple

With Liberty Accounts there is no software to install, no new hardware to acquire, no upgrades and no need to back up your data. A typical configured computer with internet access is all that you need.

Safe

Using Liberty Accounts eliminates the exchange of data files between yourself and your accountant, removing the risk of introducing damaging viruses to your business.

Power

At the touch of a button

Confidential . Safe . Secure

Security and privacy of your data is given the utmost priority at Liberty Accounts.

Your data is kept safe and confidential during transmission by employing full 128 bit encryption - the industry standard for secure transactions over the internet.

From our secure data centre the Liberty Accounts database is backed up to an off site location on a daily basis. In the unlikely event of a major disaster, our disaster recovery plan will restore normal service with minimal disruption.

Committed . Supportive . Innovative

Liberty Accounts has a planned programme of future enhancements. These will be made available to you without the need to pay for upgrades.

Whilst your accountant will deal with accounting queries, we will provide e-mail support for technical issues.

Who are we?

Liberty Accounts is the online accounting solution offered by Athene Systems. Athene founded in 1996, has expertise based on major systems developments and implementation in blue chip companies . Using our in-house development team and accountants, we specialise in the intelligent application of technology to streamline and manage business processes.
