

# Accounting Software Selection

Getting the right accounting software packages will be one of the most important decisions your business will face.

It will:

- ✍ save time by having a clear understanding of what you need from a software package
- ✍ ensure you get value for money by choosing the software that meets your exact needs
- ✍ stop you wasting your valuable time reviewing inappropriate software
- ✍ making your investment stretch into the future by identifying software that will grow with your business needs

Working with Griffins will give you access to over 25 years of accounting software experience.

As accountants we:

- ✍ understand how to profile the software that will ensure your business will comply with mounting legislation
- ✍ will do an assessment of your current and future needs and recommend the best solutions to fit those needs
- ✍ have close working alliances with all of the leading accounting software providers on the market
- ✍ offer unique software support and training programmes to ensure you get the most out of your software

You can be confident that you will have the best accounting software available on the market to fit your business needs, future plans and budget.
